

GARVIT SINGH

Aligarh, Uttar Pradesh, India | +91-9045882207 | [LinkedIn](#) | [GitHub](#) | garvitsingh.connect@gmail.com

SUMMARY

Full-Stack Developer with hands-on experience building scalable MERN applications, RESTful APIs, authentication systems, and machine learning integrations. Strong foundation in Data Structures & Algorithms with internship experience delivering production-ready React applications. Passionate about frontend, backend engineering, scalable systems, and modern web technologies.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL, HTML5, CSS3
Frontend	React.js, Bootstrap, Responsive Design, UI/UX
Backend	Node.js, Express.js, REST APIs, JWT Authentication
Databases	MongoDB, MySQL, PostgreSQL (Supabase)
Tools	Git, GitHub, Docker, VS Code

EXPERIENCE

Frontend Developer Intern - CSRBOX

Ghaziabad, UP (Remote) | July 2024 – Aug 2024

- Built a client-facing dashboard in React.js, improving user engagement through a more responsive, intuitive interface.
- Collaborated with backend teams to integrate REST APIs, ensuring reliable data flow and reducing page load times.

AI Intern - IBM SkillsBuild (via CSRBOX)

Ghaziabad, UP (Remote) | July 2024 – Aug 2024

- Developed responsive frontend applications using HTML, CSS, JavaScript, and React.js as part of IBM SkillsBuild internship projects.
- Earned certifications in core development principles and applied Artificial Intelligence concepts.

PROJECTS

Jobby App | [React.js](#) · [Node.js/Express](#) · [MongoDB](#) · [REST API](#) · [JWT](#) [Source](#)

- Built and deployed a full-stack job portal supporting secure JWT authentication, server-side pagination, optimized search using MongoDB indexing, and efficient client-side caching with React Query.
- Implemented secure authentication using **bcrypt** and **JWTs** stored in **HttpOnly cookies** to protect API endpoints and user routes.

AgroInOne - Research Publication/Project | [React.js](#) · [Node.js](#) · [Python/Flask](#) · [SQL \(Supabase\)](#) · [Machine Learning](#) · [Random Forest](#) [Source](#)

- Co-authored a crop recommendation system, **processing** multi-factor environmental and financial data to accurately predict crop yields and user loan approvals.
- Engineered a deployed agri-tech platform (Render) integrating a React.js frontend with a Node.js backend and a **Supabase (PostgreSQL)** database
- Developed a **Python (Flask)** microservice to expose REST APIs for Random Forest machine learning models.

VoxNode | [React.js](#) · [AI Integration](#) [Source](#)

- Designed an AI-powered application architecture to transcribe voice notes into structured, navigable mind maps using lovable app.

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML)

Ajay Kumar Garg Engineering College (AKTU), Ghaziabad | 2021 – 2025

Relevant Coursework: Data Structures & Algorithms, Databases (SQL/MySQL), Software Engineering, Operating Systems, DBMS

ACHIEVEMENTS & CERTIFICATIONS

- Solved 500+ Data Structures & Algorithms problems and completed the "100 Days of Code" challenge (NxtWave).
- NPTEL Certification: Enhancing Soft Skills and Personality - Communication, Time Management, and Leadership.
